#### PURPOSE

Each year, the Board of Aldermen conducts a retreat to develop goals and to set the direction in which it would like to lead the Town. To assist the Board in its planning efforts, the Town administration attempts in a very limited way to assess emerging community trends that will have an impact on the Town's ability to deliver effective services. The purpose of this item is to present the assessment to the Board.

#### INFORMATION

This year, recent census data provides a more accurate view of the changes the Town has experienced over the past ten years. In preparation of the upcoming Board retreat, staff will provide the Board with several documents to assist them in their discussions. The *Community Assessment* is one of these documents. The other documents follow:

- *Five-Year Plan Projections in the FY01-02 Budget Document*

- *New Century/New Carrboro Report and Capital Program*
