**PROFESSIONAL AFFILIATIONS:**

1993 - Registered professional engineer in North Carolina.  
present

**WORK EXPERIENCE:**

1/98 - **Environmental Data Project Manager**, Massachusetts Water Resources Authority, Boston, MA

9/01 Provide technical support in environmental data management, analysis, and presentation to marine environmental quality monitoring group overseeing the Boston Harbor Cleanup Project. Responsible for creating data applications to satisfy NPDES reporting requirements.

- Create reporting applications to satisfy NPDES reporting requirements.
- Provide programming assistance in SQL, Oracle Discoverer, MS Access, MS Excel, Visual Basic for Applications, and other data analysis and retrieval tools.
- Analyze data for possible inconsistencies and amend monitoring data storage methods to improve data integrity, insure consistency.
- Produce data exports for MWRA consultants and citizens' groups.
- Validate and load harbor outfall monitoring data supplied by consultants. Created triggers and checking scripts in SQL to improve data integrity.
- Created a compact Windows 95 GIS program for viewing MWRA sampling station locations and sampling activity
- Created Windows 95 application to efficiently summarize very large files generated from data checking scripts. Program greatly reduces time required to review large data submissions from MWRA consultants.

2/96 - **Engineering Consultant**, self-employed, Brookline, MA and Carrboro, NC

- 12/97
- Wrote commercial Windows 95 software application for thermal energy storage (TES) manufacturer using Visual Basic for DOS and Visual Basic 5.0 (for Windows). Software analyzes users' thermal load profiles and computes required system sizes, fluid flow rates, pressure drops, and temperature profiles.
  - Aided in planning, designing, and testing of novel electrical generator. Calculated thermodynamic performance and performed overall energy balance and efficiency calculations. (MATLAB, Simulink, Mathcad, Visual Basic)
  - Designed and built transducer conditioning hardware for monitoring performance tests of electrical generator. Hardware included current monitors, voltage monitors, temperature sensors, and amplifiers.
  - Assessed changes in heat exchanger design for TES system. Suggested and analyzed structural changes in steel storage tank to ease assembly and reduce warranty problems. (NASTRAN)
  - Performed sizing calculations for cooling and dehumidifying coils as per ARI STD: 410.

1/93 - **Engineering Analyst**, SilentPower Technologies, Inc., Research Triangle Park, NC

1/96

- Analyzed thermodynamic and dynamic systems of regenerative thermal machines for heat pump and electrical generation applications. Evaluated heat exchangers, linear alternators, and system dynamics to choose optimum system configuration. Wrote thermodynamic/ dynamic/ electromagnetic model simulations (in MATLAB, Borland C++, Simulink) for analyzing nonlinear characteristics of heat pump/generator performance. Researched heat pump/air-conditioner rating and performance standards of the DOE, AHAM, ARI, and ASHRAE.
- Managed heat pump proof-of-concept project. Planned, budgeted, and helped design (using PRO/Jr) and build SilentPower's first working heat pump.

9/90 - **Engineering Manager**, FAFCO, Inc., Redwood City, CA

10/92

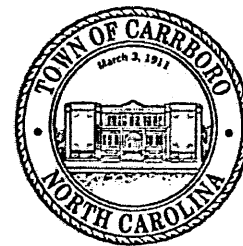

- Supervised 4-7 individuals responsible for design, documentation, and quality control of solar heating devices, industrial thermal energy storage units, and swimming pool system controllers. Managed \$350,000 budget. Executed two major product development projects and oversaw quality improvement program.
- Redesigned thermal energy storage units (ice storage) for greater efficiency, ease of manufacturing, and reliability. Wrote computer simulation of system thermodynamics, analyzed flow characteristics and structural requirements. Performed required testing at factory test facility. Represented FAFCO in the development of ARI test standard. Provided sizing data and custom designs to customer support group for domestic and international customers. Aided in field installation, start-up, and inspection of several TES systems.
- Scheduled engineering, marketing, and manufacturing activities for development of microprocessor-based swimming pool system controller. Co-developed user-friendly interface. Wrote control logic (~1000 lines of C code). Helped choose and troubleshoot hardware.

8/86 - **Product Engineer**, Saturn Corporation (General Motors subsidiary), Troy, MI.

8/89

- Responsible for analysis of approximately 50% of space frame components. Used NASTRAN, CATIA and full scale testing to optimize structural performance of Saturn vehicles. Determined optimum section geometry, material thickness, weld pattern, joint configuration, and reinforcement placement.
- Led special aerodynamic drag reduction project which resulted in significant aerodynamic improvements. Validated results with experiments in General Motors wind tunnel.

I attended the TAB meeting on the 7<sup>th</sup> of March and I believe that I will be able to attend regularly and perform the required duties in a fair manner.

REASON(S) YOU WISH TO BE APPOINTED: I feel that I can represent the graduate and professional students who make up a fair amount of the community. Transportation services are important to us, perhapes the most important town service after fire/rescue/police. I think I could help balance the committee by representing the often maligned 'student renter with individual car'. My undergraduate on/off-campus days, in an other state, are within recent memory so I think I can, to some degree, speak for that group as well.

*If you apply for membership on more than one advisory board, please indicate your preference by number, with "1" being your first choice (please limit your selection to two (2) boards). Please note that membership is limited to one advisory board at a time. You shall not be considered for appointment to another board unless you resign before filing an application or you are in the last six months of your current term.*

EXPERIENCE TO AID YOU IN WORKING ON THESE ADVISORY BOARDS: In my professional experience, I've had the opportunity to work with volunteer boards in the nonprofit and business communities. I've facilitated many meetings and made numerous presentations on behalf of the organizations that I represented. While working at the Interfaith Council, I helped plan and coordinate successful events such as RSVVP and CROPWALK. I'm a quick learner and very detail-oriented; once I commit to a project, I give it my all. Moreover, I am a team player and recognize the value of collaboration.

REASON(S) YOU WISH TO BE APPOINTED: My wife and I recently purchased our first home in Carrboro because of the town's strong commitment to quality of life issues. Having lived in Washington, DC for four years before moving here, I appreciate Carrboro's walkable downtown and overall friendly atmosphere. During my time at the IFC, I experienced firsthand the dedication of downtown business owners and their desire to support the community. I recognize the importance of continued downtown development for our town's economic future

and overall wellbeing, because you cannot separate the two. As a newer resident, I want to be appointed to the Downtown Development Commission to bring my perspective and enthusiasm to help preserve what makes Carrboro so special as it continues to grow and prosper.
