E. It is understood that when street improvements are requested and utility mains are already located in the street (such as water, sewer, gas, electricity, and telephone mains, lines or pipes), the Board of Aldermen may require that lateral connections be made from the mains to abutting property before the street is paved so that the pavement need not be broken at a later time to make these connections. The expense of these connections will be borne by the benefited property owners.

F. The Town shall make every effort to accommodate and save trees, shrubs, flowers, fences and walls attached to the land which fall in line with planned improvements within the right-of-way by planning improvements around such landscape features.
