

BOARD OF ALDERMEN

ITEM NO. D(2)

AGENDA ITEM ABSTRACT
MEETING DATE: November 15, 2005

SUBJECT: Addendum to Street Lighting Policy for Northeast Annexation Areas A and B

DEPARTMENT: PUBLIC WORKS DEPT.	PUBLIC HEARING: NO
ATTACHMENTS: A. Resolution B. Proposed Addendum to the Town's Street Lighting Policy	FOR INFORMATION CONTACT: George Seiz, 918-7427 Drew Cummings, 918-

PURPOSE

Pursuant to the motion passed by the Board on January 25, 2005, staff has developed this procedure "to allow residents in annexation areas A & B the opportunity to decline installation of street lights." The town staff proposes an addendum to the official town street lighting policy that will apply *only* to these two newly annexed areas.

INFORMATION

According to the proposed addendum, a certain percentage of the property owners with frontage on any given street in Annexation Areas A or B may petition the town to decline the installation of street lights on that street. Petitions should be submitted to the town staff for review. If a petition is valid, the request for an exemption from the street lighting policy will be granted.

Petition forms will be made available as soon as the Board of Aldermen makes a determination on the percentage of property owners required to sign the petition (by December 1st, 2005, at the latest). Completed petitions must be submitted to the town staff no later than 4:30pm on Friday, December 30, 2005.

RECOMMENDATION

Staff recommends the Board adopt this resolution adding an addendum to the Town's Street Lighting Policy. The Board should include in that resolution a determination of the percentage of property owners required to decline streetlights or in the future, if streetlights have been previously declined, to request that the Town install streetlights.
