EXPERIENCE TO AID YOU IN WORKING ON THESE ADVISORY BOARDS: I have been involved in environmental issues since 1996 when I worked for the Chapel Hill office of the Fund for Public Interest Research on environmental campaigns for clean air, water, and national parks. At the same time I served on the Carrboro Transportation Advisory Board. My interest in transportation has always been fueled by a focus on opportunities to reduce auto-dependence, and I wrote my graduate report (went to grad school at UT-Austin) on car sharing as a result. While in grad school I also took a sustainable architecture course on site at an intentional community, and learned how to build a "moldering toilet." I have retained an interest in environmental issues and a focus on sustainability in my planning jobs (I work as a planner for the Town of Chapel Hill), most recently organizing and staffing the "Preservation and Sustainability" table at the Town's Earth Action Day (I am currently the staff liaison to Chapel Hill's Historic District Commission). I feel my experience and perspective as a planner as well as a focus on transportation and land use would be beneficial to the Carrboro Environmental Advisory Board and to the Town.
