Board of Adjustment

(Board)

Candidate's Name: Tom Arnel Date of Application: 12/16/09

Candidate Summary: Mr. Arnel has become one of the most valued members of the Board of Adjustment. His longevity with the Board affords him insight into many issues that face the Board in particular—the ones that seem to come up at every meeting. Mr. Arnel has been a resident of Carrboro for 20 years and continues to show his commitment to the Carrboro community through his involvement on the Carrboro Day Planning Committee and his work with WCOM Radio. Finally, please note the reason Mr. Arnel wishes to be re-appointed—“...to serve the Town”. Based on his admirable service, his commitment to our community, and his desire to continue, I recommend, without hesitation or reservation, that Mr. Arnel be re-appointed to the Board of Adjustment for the Town of Carrboro.

Candidate's Name: John Gant Date of Application: 12/1/09

Candidate Summary: Mr. Gant has served one term on the Board of Adjustment. In his short tenure, he has become a very important source of knowledge and insight. Mr. Gant's background as an engineer has assisted the entire Board in understanding some of the complex issues concerning “lines of sight”, grading, and other basic engineering concepts that escape those of us without these skills. Additionally, Mr. Gant has a very open and welcoming manner that has made his opinion one that is quickly sought out by other Board members. He has been a very quick study of the myriad rules, policies, and procedures of the Town ordinances that apply to the Board's work. Finally, it should be noted that Mr. Gant has built a home in the ETJ which gives him a unique viewpoint in dealing with Town regulations concerning such matters. Due to his skills, attitude, and desire to continue serving, I strongly recommend that Mr. Gant be re-appointed to the Board of Adjustment for the Town of Carrboro.

Candidate's Name: David G. Collins Date of Application: 12-7-09

Candidate Summary: I have served on the Board of Adjustment for over ten years. I believe I have been fair, open, and the type of member who looks for solutions and “ways to say yes” when presented applications. I also have not hesitated to say “no” when the circumstances called for this. I believe my role is to ensure that applications are submitted within the parameters of the Town Ordinances but to also never forget that there is a larger guiding principle of “what is best for all of Carrboro”. I enjoy the work; I enjoy the members of the Committee; and I enjoy the Town staff that we interact with. I believe we are an important Board that is doing very important work. I hope to continue.
